## Reproducible Program Library—End-User License Agreement

### IMPORTANT! PLEASE READ!

The following terms and conditions are a legal agreement between Organization Design & Development, Inc. DBA HRDQ (“HRDQ”) and You, Your organization, its subsidiaries, affiliates, and legal partners (“You”) regarding the Reproducible Program Library (“RPL”).

You may use the RPL only in accordance with the terms of this agreement as set forth below.

1. License Grant. HRDQ hereby grants You a non-exclusive and non-transferable license to download, reproduce, customize, and otherwise make use of the RPL within the terms of this agreement.
2. Proprietary Rights. The RPL is the sole and exclusive property of HRDQ and/or its authors including all right, title, and interest in and to the RPL. Except for the limited rights given to You herein, all rights are reserved by HRDQ.
3. Term. This Agreement is effective upon acceptance, and will remain in effect in accordance with the term of the license purchased. The specific term of this Agreement is defined on the sale invoice provided You at the time of purchase and available thereafter from HRDQ.
4. Authorized Use of Library. For the term of this license, You may:
  - (a) Store the RPL on a computer,
  - (b) Amend, edit, and change the RPL provided that all original copyright notices, and trade and service marks, remain intact and appear on this agreement and amended versions and reproductions thereof,
  - (c) Print and distribute paper copies of the RPL for educational or training activities, whether with direct employees, students, agents, or clients, and,
  - (d) Resell the RPL, in whole or in part, provided You have a current reseller agreement with HRDQ.

You may not:

- (a) Translate, reverse engineer, decompile, disassemble, or create derivative works based on the RPL,
  - (b) Include the RPL, in whole or in part, in any publication, product or service offered for sale,
  - (c) Lease or loan the RPL,
  - (d) Copy or upload the RPL onto any bulletin board service or public Internet site, or,
  - (e) Sublicense or reassign this license.
5. Termination. Failure to perform in the manner required in this agreement shall cause this license to automatically terminate and HRDQ may exercise any rights it may have. Upon natural expiry of the term, unless renewed by You with HRDQ, access to the download site will be denied and all passwords rendered inactive. Upon termination, for whatever reason, You must destroy all original and amended versions of the RPL, in any and every format, and certify as such, in writing, to HRDQ upon request. All provisions of this license with regard to the protection of the proprietary rights of HRDQ shall continue in force after termination.
6. Warranty. The RPL is provided “as is.” HRDQ warrants that the RPL does not violate any copyrights, trademarks, trade secrets, or patents of any third parties. HRDQ disclaims all other warranties, expressed or implied, regarding its accuracy or reliability, and assumes no responsibility for errors or omissions. To the extent permissible by law, HRDQ accepts no liability for any injuries or damages caused by acting upon or using the content contained in the RPL. If any part of the RPL is defective in workmanship or materials, HRDQ’s sole and exclusive liability, and sole and exclusive remedy for You, shall be replacement of the defective material. HRDQ’s warranty shall survive the termination of this agreement. Some states do not allow exclusions or limitations of implied warranties or liability in certain cases, so the above exclusions and limitations may not apply to You.
7. Permissions. Any other use of the RPL not defined in this agreement is subject to the written approval of HRDQ.

# Instructional design and learning philosophy

We are committed to providing the best core skills content possible for Instructor-Led Training (ILT). The following principles are applied in the development of programs:

## Sound Instructional Design

All course content is developed using a variety of research techniques. These include:

- Brainstorming sessions with target audience
- Library research
- Online research
- Customer research (focus groups, surveys, etc.)
- Subject Matter Experts (SME)
- Interviews with trainers

Expert instructional designers create imaginative and innovative solutions for your training needs through the development of powerful instructional elements. These include:

- Learning objectives — effective tools for managing, monitoring and evaluating training
- Meaningfulness — connects the topic to the students' past, present and future
- Appropriate organization of essential ideas — helps students focus on what they need to know in order to learn
- Modeling techniques — demonstrate to students how to act and solve problems
- Active application — the cornerstone to learning — helps students immediately apply what they have learned to a real-life situation
- Consistency — creates consistent instructions and design to help students learn and retain new information
- Accelerated learning techniques — create interactive, hands-on involvement to accommodate different learning styles

## Application of Adult Learning Styles

Adults learn best by incorporating their personal experiences with training and by applying what they learn to real-life situations. Our experienced instructional designers incorporate a variety of accelerated learning techniques, role-plays, simulations, discussions and lectures within each course. This ensures that the learning will appeal to all learning styles and will be retained.

Review the course objectives.

Ice-breaker activity: Have participants work in small groups — introduce themselves, etc., and have them share their worst/tackiest sales line they have ever heard used. Share with the entire group

## Course objectives

Successful completion of this course will increase your knowledge and ability to:

Set goals to keep you motivated

Get organized to be able to track and follow up on leads

Find more and better leads, and follow up on them more effectively

Use your voice to enhance each and every call

Use a script that doesn't sound scripted

Use small bites to close the sale

## ModuleOne

# ***A DAY IN THE LIFE OF A TELEPHONE SALES SUPERSTAR***

**Introduction:** You might think a sales superstar is all about the perfect opening line or sales pitch. However, becoming a sales superstar is much more nuts and bolts than that. It starts with basic organization, and for that, your CRM (client relationship management system) is your lifeline.

Ask how many participants already use a contact management system/client relationship system. If some participants feel strongly about their system, ask why. Chances are, they will reiterate the points listed in the workbook.

Some popular CRM programs:

- ACT!
- Gold-Vision
- Microsoft CRM/Outlook CRM
- Salesforce.com

One way to categorize clients is by how often you contact them. For example, clients you contact monthly, every other month, quarterly, twice a year, etc.

Provide a brief overview to the five parts of the sales superstar's day. The benefit to this structure (follow-up calls in the morning, lead calls after lunch, routine stuff at the end of the day and finally, plan for the following day) is that you automatically do your highest priority items first (and for most people, this is when you're freshest).

## Organizing your day

### Using a CRM

CRM stands for Client Relationship Management, and using a good one is an essential tool for every salesperson. Every software package will have its own features and benefits; however, all should have these key characteristics.

- Simple to use
- Concise
- Offers a place to put quality (i.e. lengthy) notes
- Gives you a built-in follow-up system
- Ability to categorize clients

### Five parts to your day

- Step 1: Pull up your CRM and check follow-ups for the day
- Step 2: Do follow-up activities
- Step 3: Prospect/research leads
- Step 4: Handle administrative tasks
- Step 5: Create tomorrow's "to do" list

## Step 1: Pull up your CRM and check follow-ups for the day

*Trying to decide what's most important? Ask these questions:*

If I can only accomplish one task/activity today, what should it be?  
Two activities? Three activities? Etc.

What activities, if I postpone them, will damage my relationships with others?

What activities, if I don't do them, will complicate my day tomorrow or in the future?

## Step 2: Do follow-up activities

Discovery/qualifying calls

E-mails

Send information/materials

Set up conference calls

## Step 3: Prospect/research leads

Read industry trade magazines

Search Hoovers for data and key names

## Step 4: Handle administrative tasks

Send out proposals/information packets

Complete routine paperwork, reports, etc.

## Step 5: Plan tomorrow's activities

Create "to do" list

Step 1: Check follow ups. If you have many follow up activities scheduled for the day, how do you decide in what order to do them? Use the questions in the workbook to help you prioritize.

Prospecting/researching could be an entire program on its own. We've listed a couple basic tips, and we'll look at prospecting in more detail later.

Nowadays, many follow-up activities can be handled through e-mail (this is the preferred mode of communication for many customers/clients/prospective customers).

Handle administrative tasks: It's so easy to let routine paperwork pile up, especially filing. If you take care of it daily, it will remain under control.

Plan tomorrow's activities: Your "to do" list will include appointment and meetings scheduled for the day. You will probably tweak your list in the morning as you review and prioritize your follow up activities.

**Activity:** Calculate your hourly rate. Look at the example provided. Annual gross income of \$30K divided by 2,000 hours worked per year = \$15/hour. \$15/hr x 250 days/year = \$3,750.

So, whoever said, "Time is money" was right. Using the example provided, if you waste just one hour each day on unproductive activity, you will have spent \$3,750 on nothing! After going through the example, have participants calculate their own hourly rate and total dollars wasted per year.

How to add more time in your day: When you set goals, you stay more focused and are less inclined to waste time.

Ask participants what kinds of tasks can be grouped to save time. Typical answers include: Filing, checking e-mail, invoicing, etc.

**How to add more time in your day**

- Set goals
- Plan your day the night before
- Organize yourself and your stuff
- Group similar tasks

© 2008 HRDQ Training

## Time management

### What is your time worth?

How much money are you losing on wasted time?

#### *Calculate your hourly rate*

$$\frac{\text{Gross income}}{\text{Total annual working hours}} = \text{Hourly rate}$$

#### *Example*

$$\frac{\$30,000}{2,000} = \$15$$

#### *Your hourly rate*

$$\underline{\hspace{2cm}} =$$

### How to add more time in your day

Set goals

# contacts made

% leads converted to sales

% repeat business

\$ targets

Plan your day the night before

Organize your desk, your files (electronic and hard copy)

Group similar tasks

## Analyzing your time

Did I accomplish my high-priority items today?

---

Did I achieve my goal(s) for the day?

---

How much time did I spend prospecting for new clients?

---

Did I contact every prospect I put on my list for today? If not, why not? What prevented me from reaching that prospect?

---

What is the most productive thing I did today?

---

What is the least productive thing I did today?

---

If I could do today over, what would I do differently?

---

What did I do today that I feel really good about?

---

Every successful salesperson takes time to reflect. In the beginning (or maybe always) you'll want to ask yourself these questions at the end of everyday. Later, you may choose to use these as a check-in on a weekly or monthly basis.

Making sales is all about delayed gratification — it can be hard to invest time in future business when there is no immediate payoff.
